AED Audio is a premium European audio brand founded and created by AED group. AED stands for Acoustical and Electronical Development which started back in the early 1980's with the development of our own speakers. In the beginning, components of several brands were used

to build our own AED speaker range. Today, AED is returning to its legacy with a brand new product range that is inspired and developed with the experience and the knowledge of audio professionals. Become part of the legacy by choosing AED Audio.

# FLEX6

## MULTIPURPOSE POWERED LINE SOURCE SPEAKER

The FLEX6 loudspeaker is the only professional multipurpose audio product available worldwide on the market, useable for a variety of applications. Because of its multipurpose way of deployment, this 1.300 W RMS powered speaker can be used in several ways. Put the FLEX6 on a pole, stack it and create a column array, fly it as a line array up to sixteen cabinets, put two horizontally on a pole in a sub-top combination, etc. Why would you buy different types of loudspeakers if you can do all the jobs with one multi-functional speaker? The FLEX6 is the most efficient and versatile product for all your future jobs!
